FROM CHAIRMAN DESK

I am very happy to know that Fabtech College of Pharmacy going to publish it's Twelfth Newsletter "Fabtech Pharma Newsletter" which reflects bimonthly updates of the academic, co-curricular activities and extracurricular activities of the staff and students of the college. We at FCP conceptualize to train and

bring out the best in the prospective pharmacist, keeping in view the focus and the direction as demanded by the trends in the pharmaceutical care sector by providing efficient infrastructure, laboratories, digital library for students and staff professionally skill full. We have also intervened in doing bit towards the society and have engaged in various health campaigns for the community through the enrolment of staff and students. With this aims at preparing the students as Pharmacists and making them aware of their rights and duties stipulated on moral issues based on pharmacy ethics and values. I wish you all the best for your efforts.

**Hon. Shri. Bhausaheb A. Rupnar
Chairman**

FROM PRINCIPAL DESK

It is my privilege to publish the Twelfth copy of Fabtech Pharma Newsletter 2023. The last two months has been phenomenal in all the respects as well could add so many activities for the students and staff which were successfully completed and has brought the name to the department.

This copy will give the information related to academic, co-curricular activities carried out in last two months. Under the visionary and strategic guidance of our management we march in achieving a sustainable success. Our students, faculty and staff come together as a true community of scholars to advance knowledge overcome challenges to pursue their fulfilments. We believe that 'Education' is a wholesome, holistic exercise and as such we strive to give a whole new meaning to word.

**Prof. Dr. S.K. Bais

BIMONTHLY COLLEGE NEWSLETTER

Pharmacy profession in India: Current scenario and Recommendations

INTRODUCTION

Pharmacy is the health profession that links the health sciences with the chemical sciences and it is charged with ensuring the safe and effective use of pharmaceutical drugs. Nowadays in India Pharmacy profession is becoming very popular among individuals because of its vast scope Worldwide. In countries like India, people are now focusing to this profession apart from Doctors and Engineers. Parents are also interested to send their son and Daughters to this profession. As a result, numerous colleges and branches have been opened in this profession.

Pharmacists comprise the third largest healthcare professionals in the world and pharmacy profession has been evolving steadily over the last decade in India. Today, pharmacists have expanded their role from dispensing to pharmaceutical care by maximizing the benefits of medications and their safety. With the increase in work related activities, it has directly or indirectly influenced the quality of work delivery and job satisfaction in pharmacists. Job satisfaction is defined as a reaction of workers with respect to their roles in the organization that employs them. It is the degree of favourableness with which employees view their work and is an important contributing factor towards a person's motivation and productivity. It can determine whether an employee will remain in a position or seek work elsewhere. Furthermore, job satisfaction can influence the quality of work produced. Lower level of job satisfaction is directly associated with lower life satisfaction and has an effect on an individual's life. Job satisfaction affects the lives of all workers, including health workers. Both job satisfaction and motivation play an important role in job retention and increased productivity of health workers which in turn improves health system performance. Difficulty in retaining clinical staff in

low and middle-income countries makes the already inadequate health care system more fragile. Thus, pharmacists' satisfaction with their work affects not only employees and employers, but also patients who receive the pharmacists' services.

A k ram et al. conducted a pilot study about job satisfaction among pharmacists in their practice settings. The study constituted a nationally representative sample and showed poor job satisfaction among Indian pharmacists. Pharmacists stated that they didn't like their jobs better than the "average worker." In hospital as well as community pharmacy settings, counselling patients is one of the key roles that pharmacists offer in developed states such as Maharashtra, Tamil Nadu, Kerala and Karnataka. Even today in North India, pharmacists are considered as 'mere drug dealers'. Many states have failed to implement Drugs and Cosmetics Act 1940 and chemist shops in these states run without full time pharmacists. A study conducted in the community pharmacy setup in urban area of North India (New Delhi) showed that 71% patients got benefit from community pharmacists but pharmacists predominantly have a commercial role, aimed at making profits. The conditions are too bad in rural areas in India, especially in infrastructural under developed states (Uttar Pradesh, Bihar, Rajasthan, and Madhya Pradesh because most of the pharmacies run without pharmacists. In these states, pharmacy owners have only high school diploma or are illiterate and end up hiring a pharmacist on paper to procure pharmacy license in exchange of an annual payment of \$129 - \$194.

Furthermore, the general public also regards community pharmacists working in medical stores as a first choice to seek medical counsel for minor ailments but unfortunately pharmacists are not available at all times due to higher workload, increased volume of prescriptions and the number of interactions with patients. In India, in the community pharmacies, pharmacists just dispense medications and do not counsel patients about taking prescriptions and OTC products. Developed nations have clearly established

the role of community pharmacists by providing them with knowledge and techniques to counsel patients, provide information about medicines and disease conditions or advice about life style modifications, drug administration, dosage, side effects, storage of drugs, and drug and drug-food interactions. Many developed nations such as Australia, United Kingdom, and United States have also given prescription rights to pharmacists and nurses to reduce burden on physicians and improve quality of care.

However, in India, compared to the western world, the role of the community pharmacist is limited. Since the last decade, pharmacy profession in India is evolving due to industrialization and increase in patient needs, leading to an increase in the demand of pharmacists. According to the Pharmacy Council of India (PCI), there are 6,57,230 registered pharmacists practicing since January 2012. In lieu of this large number, there is a need for reforming the structure and policies of governing bodies like Pharmacy Council of India (PCI) and All India Council for Technical Education (AICTE) and several associations such as Indian Pharmaceutical Association (IPA), Indian Pharmacy Graduates Association (IPGA), Indian Hospital Pharmacists' Association (IHPA) and Association of Pharmaceutical Teachers of India (APTI) to improve job satisfaction among pharmacists.

MYTHOLOGY

Lord brahma was the first teacher of universe who wrote "Ayurveda" (Science of life) in 5000 BC.

VEDIC PERIOD

Lord dhanwantrise as worshipped as "God of Health" holding the amrut (nectar) in his hand. Righveda described the various herbs used in treating numerous diseases.

Charaka and Sushrut spread the message of Ayurveda in ancient India.

PRE-HISTORIC PERIOD

BC 226-Hospital concept in the period of Great Ashoka was well developed and practiced in India.

AD Period

900AD- Tamil Nadu (Tirumakku dal village) discovered organized hospital activity in India treating diseases like piles, jaundice, dropsy, TB, haemorrhage, etc.

1000 AD- All the medical works were modelled on the Charaka pattern of treatment of diseases.

Europe was influenced by Indian drugs and herbs in 1500 century.

Portuguese physician cum teacher Garcia d aorta published a treatise: "Cologuious dos stroples a drogus da indica" describing various Indian herbs in 1563.

First general hospital was set up in Chennai in 1664.

Chennai medical college started at Chennai in 1835 and Calcutta Medical College, Calcutta in 1936.

PRE-INDEPENDENCE ERA

The western or the so-called Allopathic system came into India with the British traders who later become the rulers. Under British rule this system got state patronage. At that time, it was meant for the ruling race only. Later it descended to the people and become popular by the close of 19th Century.

The history of pharmacy profession or practice in India starts with opening of chemist shop in 1811 by Scotch M Bathgate opened in Kolkata. This was probably the beginning of pharmacy practice in India.

Hindustani version of London Pharmacopoeia available in India in the year 1824 is described to control pharmaceutical activities in India. This forced the Indian community to import drugs from overseas and pushed Indian pharmacy to rudimentary stage.

Goa medical college, started at Panjim, Goa in 1840. Bengal dispensary and pharmacopoeia-Vol 1 published from Calcutta, Editor Prof, WBO Shaugh

Neesy, 1841. The devnagri transcription in hindi and Bengali of London pharmacopoeia made available in India in 1843. Bengal Pharmacopoeia and General conspecta of medicinal plants (Popularly known as Bengal Pharmacopoeia) published in 1864.

E.J Wang tabled the motion for publication of Indian Pharmacopoeia- 4th march 1864. H.W. Honey, the “first qualified person” to get recognition as chemist and druggist in India in 1866. “First Pharmacopoeia of India” under British Monarchy in India was published in 1868.

Moder Sheriff, “Pharmacist” in Chennai College and Hospital, compiled “Vernacular names of Indian Medicinal Plants and Herbs” in 1869 which formed the nucleus for “Indian Pharmacopoeia”.

Starting of regular two years course for “Chemists and Druggists Diploma” at MMC, Chennai in 1874. Opium act implanted in 1878.

Pharmacy education pattern was based on the instructions provided by the pharmaceutical society of Great Britain. A formal training of the compounders was started in 1881 in Bengal.

“Chemists and Druggists Diploma” course of MMC, Chennai made equivalent to that as diploma issued by Royal Pharmaceutical Society of Great Britain, London, in 1893 (2 Years study + 3 months practical training + 1 year internship).

January 1894- The Indian Journal of Pharmacy started publishing from Calcutta but soon became defunct. 1898 Sea Customs Act Goods with “false trade description” were prevented from importing under this act.

1901: Establishment of the Bengal Chemical and Pharmaceutical Works, Calcutta by Acharya P.C. Ray. 1903: A small factory at Parel (Bombay) by Prof. T.K. Gujjar.

1907: Alembic Chemical Works at Baroda by Prof. T.K. Gujjar. 1909 Bengal Excise Act 1912 United Provinces (now Uttar Pradesh) Prevention of Adulteration Act Refers to adulteration of foods and drugs. 1914 Pujab Excise Act

Poison Act was passed in 1919. 1919 Bengal Food Adulteration Act. In 1919 Bihar and Orissa Prevention of Adulteration Act was come. 1919 Madras Prevention of Adulteration Act Chiefly concerned with food adulteration.

November 1920- The first organized move to form a pharmaceutical society, the Calcutta Chemists & Druggists Association released thid, which changed its name to Bengal Chemists & Druggists Association in 1926.

The pioneer organization in the true sense of “Qualified pharmacists” was formed by the Chemist & Druggists of Chennai region in 1923 under the banner of the Pharmaceutical Association which changed its name to Pharmaceutical Society of India in 1925 and practiced the profession of pharmacy up to 1950. Government of India on 11th August 1930, appointed a committee under the chairmanship of Late Col. R. N. Chopra to see into the problems of Pharmacy in India and recommend the measures to be taken. This committee published its report in 1931. It was reported that there was no recognized specialized profession of Pharmacy. A set of people known as compounders were filling the gap.

In 1930, Dangerous drug act and Drug enquiry committee under the Chairmanship of Col. R.N. Chopra (Chopra Committee) was came. Inclusion of pharmaceutical chemistry as a subject course at degree at Banaras Hindu University (BHU), Varanasi- great vision of Late Pt. Madan Mohan Malviya, 1932 – the then Vice Chancellor of BHU.

The first pharmaceutical society with education platform and view emerged in November 1935 under the banner of BHU Pharmaceutical Society which acted as a nucleus for the emergence of an All India Association – United Provinces Pharmaceutical Association (UPPA) registered in December 1935 but the name UPPA was soon replaced with Indian Pharmaceutical Association (IPA) in 1936 and first All India Pharmaceutical Conference was held at Banaras in January 1941.

Regular degree course (B. Pharm) started at BHU under the leadership of Prof. M.L. Shroff- "The Father of Indian Pharmacy" education in India- 1937-38 session. The course provided for studies in pharmaceutical chemistry, pharmacy, pharmacognosy, pharmaceutical economics and German Human physiology and pharmacology were not included. The graduates generally preferred to go for jobs in pharmaceutical manufacturing and analysis. It was later that human physiology and pharmacology got to form part of the syllabus at the BHU.

First issue of Indian journal of Pharmacy was released in 1939- Official publication of IPA.

In 1940 Prof. Schroff introduced M. Pharm at BHU, Varanasi.

Subhadra Kumar Patni became the first Pharmacy Graduate in India in 1940 – Formation of Pharmacy and Allied Manufacturers & Distributors Association Ltd. (PAMDAL) – head quartered at Mumbai. 1940: Govt. brought "Drugs Bill" to regulates the import, manufacture, sale and distribution of drugs in British India. This Bill was finally adopted as "Drugs Act of 1940". The Drug Act partly implanting Chopra Committee 1941 – First ever holding of All India Conferences of IPA at BHU, Banaras.

Post of Hospital Pharmacist created at KEM Hospital, Mumbai, 1941 (Modern pharmacy services started at CMCH, Vellore; Jaslok; JJ Hospital and other hospitals in India). Gorakh Prasad Srivastava became the first Post Graduate in Pharmacy from BHU in 1943.

The University of the Panjab, Lahore, which came next to institute the degree course in pharmacy in 1944, aimed at producing man power particularly for professional pharmacy. Dr Khem Singh Grewal was the founder of pharmaceutical education at the Panjab University, the nucleus he created now stands as the famous University Institute of Pharmaceutical Sciences of the Panjab University at Chandigarh. Grewal became an accomplished pharmacologist. As Professor of Pharmacology, he headed the Department

of Pharmacology at the K. E. Medical College (1940-47). PhD degree in Pharmaceutical Sciences is started in 1945 at BHU. Drug and Cosmetic Act and Rules have effective in 1945. Association of Pharmaceutical Teachers of India (APTI) was formed in 1946. 1945: Govt. brought the Pharmacy Bill to standardize the Pharmacy Education in India 1946: The Indian Pharmacopoeial List was published under the chairmanship of late Col. R.N. Chopra. It contains lists of drugs in use in India at that time which was not included in British Pharmacopoeia. Health survey Development Committee (Bhore Committee) report tabled in 1946 recommending 3-tier system of pharmacy education in India, viz, diploma-degree and technologists in pharmacy.

POST INDEPENDENCE ERA

Indian Pharmaceutical Congress Association (IPCA) was floated in 1948 at Calcutta and the first annual conference was held in Calcutta itself in December 1948 with Prof. M.L. Shroff as a president Elec. But this address was read in absentia which a surprise was for everybody. 1948: Indian Pharmacopoeial Committee was constituted under the chairmanship of late Dr. B.N. Ghosh. The statutory regulation of pharmacy institutions in India was established with the enactment of the Pharmacy Act 1948, and The Pharmacy Council of India was established in the year 1949 and the first education regulations (ER) framed in 1953, which were subsequently amended in 1972, 1981 and 1991.

The Pharmacy Act passed in 1948- Constitution of Pharmacy Council of India (PCI) and framing of Education Regulations (ER) under section 19 Of the Act. First Diploma in Pharmacy education institute started at Jalpaiguri, 1949 at West Bengal. Education Regulation of PCI laid down Diploma of Pharmacy (D. Pharm) as the minimum qualification to enter into the profession of pharmacy in India-1953. Sheovihari Lal became the first Ph.D. holder in Pharmacy field, obtaining his Doctorate degree from

University of Patna (Patna Medical College) under the guidance of Dr. Achari, Department of Pharmacology, 1953. Unification of IPCA & IPA took place in March 1954 and it was resolved that IPCA will hold annual conferences and all other professional activities will be carried out by IPA and subsequently the first joint conference of the congress was held at Baroda.

Pharmacy Enquiry Committee Report 1954 (Major General S.L. Bhatia) recommended pay scales for pharmacists. Drugs and Magic Remedies (Objectionable Advertisements) Act 1954 was passed to stop misleading advertisements (e. g. Cure all pills) in 1954. 1955: Medicinal and Toilet Preparations (Excise Duties) Act 1955 was introduced to enforce uniform duty for all states for alcohol products. 1955: First Edition of Indian Pharmacopoeia was published. Master of Pharmacy syllabus was drafted by AICTE in 1960. Indian Drug Manufacturers Association (IDMA) was founded in 1961. Formation of Indian Hospital Pharmacists Association (IHPA) in 1963, head quartered at New Delhi. First issue of Indian journal of Hospital pharmacy was published in 1964. Organization of Pharmaceutical Producers of India (OPPI) established in 1965 which has head quarter in Mumbai. Second Edition of Indian Pharmacopoeia released in 1966. India joined the Commonwealth Pharmaceutical Association (CPA) as constituent member in 1970. Nayudamma Committee directed holding of GATE examination for M. Pharm courses with scholarship in 1978. All India Organization of Chemists & Druggists (AIOCD) formed, merging all the other bodies in 1979. Establishment of Pharmacy graduates Association (IPGA) on 1980.

Amendment in Pharmacy Act 1948 to restrict the practice of pharmacy to "Qualified Registered Pharmacists" only was done in 1984. Third Edition of Indian Pharmacopoeia released in 1985. In 1985, Narcotic and Psychotropic Substances Act has been enacted to protect society from the dangers of addictive drugs. Establishment of National Institute of Pharmaceutical Education & Research (NIPER) at Mohali 1991 and Dr C.L. Kaul appointed as the First

Director. All India Board of Pharmaceutical Education and National board of Accreditation was formed in 1994. Drug price Control Order formed in 1995. Fourth Edition of Indian Pharmacopoeia released in 1996. The Pharmacy Council of India (PCI), The Indian Pharmaceutical Association (IPA) and leaders of pharmacy profession have undertaken several initiatives including the rolling out of the Charter of Pharma Vision 2020, released by His Excellency Dr. A.P.J. Abdul Kalam, during 55th IPC 2003 at Chennai and roadmap document during 58th IPC 2006 at Mumbai proposing various activities to shape the future of pharmacy profession and pharmaceutical services in India by 2020. Fifth Edition of Indian Pharmacopoeia was published in 2007.

The Pharm. D regulations u/s 10 of the Pharmacy Act 1948, have been notified in the Gazette of India on 10th May, 2008 with an aim to equip the future pharmacist of India with skills of not only dispensing medicines but also to serve as counsellor of medicines with focus towards patients and prescriber of drugs. The 6-year PharmD and 3-year post-baccalaureate PharmD began to be offered as professional degree programs in India focused mainly toward clinical and community aspects of the profession and mandatory practical training at practice sites. The Pharm. D program is comprised of 6 academic years, with 5 years of study and 1 year of internship and residency at a practice site. Six months of the internship and residency are spent in a general medicine department and 2 months each in 3 other specialty departments. In this way, the professional and educational activities in the field of pharmacy in India are an ongoing process for ensuring the qualitative and quantitative changes in the total healthcare system of India.

RECOGNITION OF PHARMACISTS

Pharmacists can play an important role in providing quality health care by working along with physicians. A team of 5–6 pharmacists should be

appointed in PHCs (Primary Health Centres) at panchayat level and in CHCs (Community Health Centres) at the block/tehsil level. There should be presence of a pharmacy officer working under a medical officer at the CHC and PHC level and similarly in each district, there should be the presence of a chief pharmacy officer (CPO) working under a chief medical officer (CMO). Drug inspectors must be appointed at tehsil level in addition to their appointment at the district or regional level for proper regulation. Pharmacy teachers and pharmacists working in hospitals and industries should be given due recognition, especially in the pharmaceutical industry where many art and science graduates occupy many of the pharmacy based jobs. The Department of Pharmaceuticals (DoP) should be recognized as part of the Ministry of Health and not as part of the Ministry of Chemicals & Fertilizers, both at the central level and the state level since pharmaceutical products' (life saving medicine, surgical products, cosmetics) procurement, formulation, manufacturing, quality analyses, labelling and dispensing undergo a very different process, unlike chemicals and fertilizers.

WORKING PRACTICE

Pharmacists should be majorly involved in and employed for manufacturing pharmaceuticals due to their expertise in the field. Presently, a number of art

and science graduates with no basic knowledge about pharmaceuticals work in pharmaceutical industries. Some measures to be taken by PCI to improve pharmacy practice should be prohibiting physicians from storing medicines in absence of a pharmacist, compulsory mention of the name of the pharmacist who dispensed the prescription along with the name of the physician who issued the prescription, prohibiting pharmacists from sale of prescription medications over the counter, renaming "medical stores" as "pharmacies", making hiring of pharmacists mandatory in addition to procuring a pharmacist licensure in pharmacies run by non-pharmacists and trying to limit working hours for practicing pharmacists to a maximum of 8 hours per day.

The pharmacist with PharmD or M. Pharm can serve as a vital source of drug information or polypharmacy for the physician, nurses, other healthcare professionals and patients; perhaps the only professional who can help in the reduction of drug-related problems and drug interactions, providing cost effective therapy and determining drug-related effects on blood biochemistry. For example, in a case where there is concurrent administration of agonists or antagonists, the pharmacist can play a vital role by providing information about the appropriate dosage to attain the maximum possible therapeutic effect of the co-administered medicines. Furthermore, in treating geriatric and pediatric patients with polypharmacy

BIMONTHLY COLLEGE NEWSLETTER

issues, the pharmacist can play a major role in therapy compliance and improving quality of life through effective counselling sessions. Also, among patients with chronic ailments such as diabetes mellitus, bronchial asthma, hypertension, hyper lipidemia, osteoporosis, psychotic disorders, and other infectious diseases, the pharmacist can improve therapy outcomes and physical well-being via medication therapy management. Many studies have demonstrated that intrinsic and extrinsic factors are valid and are important variables to consider when evaluating job satisfaction among pharmacists. Intrinsic factors such as challenge, performance, and autonomy; and extrinsic factors such as rewards, salary, benefits, job atmosphere, advancement, and management concerns are significant and major predictors of job satisfaction. Further study of these variables by a multidisciplinary team can improve levels of job satisfaction among Indian pharmacists. The government policy makers should implement policies based on based on the intrinsic and extrinsic factors to raise employee satisfaction in the workplace. Pharmacy and medical (drug related) authorities should also at the state and local level, undertake initiatives to enhance the role of pharmacists in both community settings and hospitals to improve the therapeutic outcomes for patients, generate and improve pharmacist job satisfaction, and improve health and medication related awareness among people.

The Pharmacy education in our country has witnessed tremendous expansion in last one decade. However, the standards in education have been eroded by rising tides of mediocrity. There is an urgent need to initiate an academic exercise aimed at attaining revamping of curriculum keeping in pace with current and emerging trends in the field of pharmacy. We have today 6 lacs pharmacists in the country, of which lacs are in community pharmacy. Diploma holders largely handle the pharmacy profession and the providing of quality pharmaceutical care is still a dream. However, significant developments underway may change the situation-

- Increase in consumer awareness
- Awareness among the pharmacists on the need to provide direct patient care
- Entry of international players in community pharmacy and health insurance
- Increasing foreign direct investment in health industry
- Increase in awareness that quality pharmaceutical care can be delivered only by pharmacists trained in direct patient care

“Quiz competition on Pharmacovigilance” organized on 20th September

On occasion of 3rd National Pharmacovigilance Week 2023 “Quiz competition on Pharmacovigilance” was organized on 20th September 2023 in Fabtech College of Pharmacy, Sangola for under-graduate students. The goal of the Event Quiz competitions is always interesting and informative, which keeps the students interested. The primary goal of this event is to educate them on Pharmacovigilance practices.

In this competition, four different teams namely, Final year Div-A & B. Third Year Div-A & B and Diploma Second year with three participants in each team give tough battle to each other. Rules and

regulations of the quiz were explained at the beginning. It was interesting two-round competition, including objective questions with options round and rapid-fire round which engaged the students for one hour.

The students showcased their brilliance by rapidly answering the questions. Though some of the questions were very tricky, the teams tried to answer them with confidence. Although the teams participated actively, the team that scored the most was Third Year Div-B team. The names of the winners were announced at the end of the ceremony. Principal of Fabtech College of Pharmacy, Sangola, Dr. S.K. Bais sir, motivated the students by providing them with certificates and prize money. It was very informative and knowledge enriching competition for the participants along with the audience. This program was successfully conducted and coordinated by Prof. A. V. Pore, Prof. S.R. Mane and Prof. Y. N. Arjun, under the guidance of Prof. Dr. S.K. Bais, Principal Fabtech College of Pharmacy, Sangola. All teaching staff and students were present for the program.

A Freshers Welcome Program was arranged at Fabtech College of Pharmacy, Sangola for D. Pharm first year students on 17th October

The 17th October, 2023 was marked as a memorable day in the life of every fresher of 2023-2024 batch at Fabtech College of Pharmacy, Sangola. The Fresher's Day was a day that was filled with excitement, joy, music, enthusiasm, laughter and happiness.

The celebration started sharp at 10:30 am at Seminar Hall of college with the lightning of lamp by Chief Guest, Hon. Shri Bhausaheb Rupnar, Chairman, Fabtech Education Society's Sangola, Hon. Dr. Shri. Amit Rupnar, Managing Director, Fabtech Education Society's Sangola, Hon. Shri. Dinesh Rupnar, Executive Director, Fabtech Education Society's Sangola, Dr. Shri Sanjay Adate, Campus Director, Fabtech Technical Campus, Sangola, and Prof. Dr. S.K. Bais Principal, Fabtech College of Pharmacy, Sangola, Prof. S.U. Kamble, HOD, Diploma in Pharmacy, Sangola.

Principal welcomed all fresher's 2023-24 and Fresher's were formally welcomed into the Fabtech Pharmacy family. The programme was inaugurated

with valuable speech of chief guest. Their speech was motivated to our students to grab skills for updating in knowledge to remain continuously in the stream of pharmacy education.

The fresher's party was celebrated with introduction round followed by fun and Masti. Funny games were organized so as to generate the feeling of fraternity among seniors and juniors. All the events were artistically and beautifully presented in colours as well as style. The audience was kept enthralled for three hours by mind, blowing performances. Participants were supported and encouraged by everyone as they performed on the stage.

The main challenge of the event Mr. and Ms. Fresher were selected, on the basis of their performance. Mr. Nilesh Sutar as Mr. Fresher and Ms. Isha Kabhiraj as Miss Fresher won the title. Around 120 students were participated in this and lunch followed the program. All the Freshers including the senior's rocked the show and enjoyed the celebrations and all the Freshers thanked the principal, staff and senior students for hosting such a nice program that they could cherish lifelong. It is said that a good start signifies a great end, and the fresher's could not have asked for a better kick off.

Hospital visit arranged for D. Pharm second year students on 19th October

In the hospital, General as well as specialist treatment are given to out-patients and in-patients. The hospital is run by the Managing director, Dr. Ajinkya Nashte, M.D., He is supported by duty doctors and visiting consultants. There are 15 consulting rooms in the hospital for the outpatients to consult the specialists. The consultants are from various specialties like Cardiology, Neurology, Dental, ENT, Gynaecology, Urology etc. The visiting consultants work at a specific time in the hospital. However, in case of emergency and need they visit the hospital on the request of the duty doctors. The other specialist like General Surgeon, Laparoscopic surgeon and anaesthetic also visits the hospital at the time of surgery.

The hospital has a reception which records the details of patients (both in-patients and out-patients). The details are recorded in the computer so that it can be reviewed in future. Billing for clinical test, X-ray, appointments are also attended at the reception. In patient's billing and cash receipt are also attended in the Reception.

DEPARTMENTS

The Hospital has various departments. We have seen some of the departments.

Clinical pathology

Many clinical tests are being undertaken in this department. Urine analysis, Blood analysis, sputum and sperm test are being carried out here. The blood collection unit is located in the ground floor itself for easy visit of out-patients. The results are processed and delivered in the Laboratory.

Diagnostic imaging department

Formerly known as X-ray, this department provides a full range of diagnostic imaging services including

General radiography (X-ray scans)

Mammography (breast scans)

Ultra sound scans

Angiography (X-ray of blood vessels)

Accident and emergency care

This department (sometimes called Casualty) is where you are likely to be taken if

you've called an ambulance in an emergency. This department operates 24 hours a day,

every day and are staffed and equipped to deal with all emergencies. The hospital is also provided with 3 ambulances.

Critical care

Sometimes called intensive care, this unit is for the most seriously ill patients. It has a relatively small number of beds (6) and is manned by specialist doctors and nurses as well as by consult anaesthetics, physiotherapists.

General surgery

The general surgery ward is well equipped with the instruments and staff to assist the doctors in the surgery. The general surgery ward covers a wide range of a surgery and includes day surgery, thyroid surgery, laparoscopic surgery and endoscopy.

Pharmacy

The hospital pharmacy is run by pharmacists, pharmacy technicians and attached staff. It's responsible for drug-based services in the hospital, including the purchasing, supply and distribution of

फॅबटेक कॉलेज ऑफ फार्मसी येथे शिक्षक दिन उत्साहात साजरा

सांगोला (प्रतिनिधी):-सांगोला येथील फॅबटेक एज्युकेशन सोसायटी संचालित फॅबटेक कॉलेज ऑफ फार्मसी या महाविद्यालयामध्ये भारतरत्न डॉ. सर्वपल्ली राधाकृष्णन यांच्या जन्मतिथिनिमित्त त्यांचा जन्मदिवस 'शिक्षक दिन' म्हणून साजरा करण्यात आला.

विद्येची देवता सरस्वती व भारतरत्न डॉ. सर्वपल्ली राधाकृष्णन यांच्या प्रतिमेचे पूजन कार्यक्रमामध्ये अध्यक्ष फॅबटेक टेक्निकल कॅम्पसचे परिसर संचालक डॉ. संजय अदाटे व महाविद्यालयाचे प्राचार्य डॉ. संजय बैस यांच्या हस्ते करण्यात आले.

अध्यक्षीय भाषणामध्ये डॉ. संजय अदाटे यांनी औषधी वनस्पतीचे

महत्व अधोरेखित केले व प्रमुख पाहुण्यांचे स्वागत पुष्पगुच्छ न देता औषधी वनस्पतीचे रोप देवून केल्याबद्दल औषधनिर्माणशास्त्र महाविद्यालयातील शिक्षक, शिक्षकेतर कर्मचारी आणि विद्यार्थ्यांचे कौतुक केले. फॅबटेक टेक्निकल कॅम्पस मध्ये भव्य औषधी वनस्पतींची बाग तयार करण्यात येणार असून त्यासाठी तृतीय व अंतिम वर्षांच्या विद्यार्थ्यांनी हातभार लावावा असे आवाहन त्यांच्यामार्फत करण्यात आले.

प्राचार्य प्रा. डॉ. संजय बैस यांनी आपले मनोगत व्यक्त करताना शिक्षक आणि विद्यार्थ्यांची काय भूमिका असली पाहिजे, विद्यार्थ्यांनी

आपल्यातील गुणवत्तेचा योग्य उपयोग करून औषधनिर्माणशास्त्र शाखेत होणार्या विविध स्पर्धा परीक्षांमध्ये उज्वल यश संपादन करून आपले व पर्यायाने आपल्या महाविद्यालयाचे नाव यशाच्या शिखरावर पोहचवावे असे आवाहन त्यांच्या मार्फत करण्यात आले.

शिक्षक दिनाचे औचित्य साधून या कार्यक्रमात सर्व शिक्षकांचा आदर सत्कार तृतीय वर्षात शिकत असणाऱ्या विद्यार्थ्यांनी करून कृतज्ञता व्यक्त केली. तसेच विद्यार्थी आणि शिक्षकांनी सुद्धा आपली मनोगते व्यक्त केली.

सूत्र संचालन तृतीय वर्षाच्या विद्यार्थिनी कु.माधुरी पवार आणि कु.

रसिका लांडगे यांनी केले तर आभार प्रदर्शन तृतीय वर्षाचा विद्यार्थी कु. विनोद साठे यांनी केले. हा कार्यक्रम तृतीय वर्षाच्या विद्यार्थ्यांनी प्रा. अमोल पोरे, प्रा. सरफराज काझी व प्राचार्य प्रा. डॉ. संजय बैस यांच्या

मार्गदर्शनाखाली यशस्वी रित्या पार पडला. संस्थेचे अध्यक्ष भाऊसाहेब रुपनर, व्यवस्थापकीय संचालक डॉ. अमित रुपनर, कार्यकारी संचालक दिनेश रुपनर, परिसर संचालक डॉ.

संजय अदाटे आणि तांत्रिक संचालक डॉ. बाडकर यांनी औषध निर्माणशास्त्र शाखेच्या या कार्यक्रमाचे कौतुक करून शिक्षक व विद्यार्थी यांना पुढील वाटचालीस शुभेच्छा दिल्या.

फॅबटेक कॉलेजमध्ये योगा जनजागृती व आरोग्य व्यक्तिमत्व विकास शिबिर संपन्न

सांगोला (प्रतिनिधी): -सांगोला येथील फॅबटेक कॉलेज ऑफ फार्मसी मध्ये योगा जनजागृती व व्यक्तिमत्व विकास यावर चर्चासत्र संपन्न झाले अशी माहिती कॉलेजचे प्राचार्य डॉ. संजय बैस यांनी दिली. या कार्यक्रमासाठी योगा शिक्षक श्री. सतीश राऊत प्राथमिक आरोग्य अधिकारी (अकोला) यांनी योगा आहार व व्यक्तिमत्व

विकास यांच्यावर सविस्तर मार्गदर्शन केले. विद्यार्थ्यांना योगा बद्दल तसेच आरोग्याविषयी कशी काळजी घ्यायची याची माहिती मिळावी यासाठी या कार्यक्रमाचे आयोजन करण्यात आले होते.

कार्यक्रमासाठी प्रमुख पाहुणे परिसर संचालक डॉ. संजय अदाटे, व वाघमोडे गुरुजी हे उपस्थित होते. कार्यक्रमाची सुरुवात

योगा गीत दीप प्रज्वलन व प्रतिमापूजन झाले. श्री. सतीश राऊत यांनी आरोग्यासाठी फायदेशीर असे योगा प्राणायाम यांचे प्रात्यक्षिक करून दाखवले.

प्रास्ताविक बी. फार्म प्रथम वर्षातील विद्यार्थिनी कु. सानिका पुजारी यांनी केले व प्रा. शिरीष नागणसूरकर व प्रा. अतुल वाघमोडे यांनी मनोगत व्यक्त केले कार्यक्रमाच्या शेवटी पसायदान व तीन - चार आसणे घेऊन कार्यक्रमाचा शेवट झाला.

हा कार्यक्रम संस्थेचे अध्यक्ष भाऊसाहेब रुपनर, संस्थेचे व्यवस्थापकीय संचालक डॉ. अमित रुपनर, कार्यकारी संचालक श्री. दिनेश रुपनर व परिसर संचालक डॉ. संजय आदाटे, आणि महाविद्यालयाचे प्राचार्य डॉ. एस. के. बैस यांच्या मार्गदर्शनाखाली संपन्न झाले.
